**From Cam Art**

- Clay (white air dry) - **MAD** – air drying clay. This is one of the best air drying clays we have used, but if you're on a budget you can get the clay from the Art Shed and that's also fine.

The links are for the Art Shed who deliver and have reasonable prices. But you can get these things through the Artshed, Kmart, Officeworks etc. We haven't included them in the list as most of you have them from previous terms, or within your home art supplies. Any queries get in touch (we are very good at finding bargains at Art Smart!!)
